

QLS-11400

MMW Sodium Sulfonate

GENERAL DESCRIPTION:

QLS-11400 is an oil soluble, medium molecular weight semi-synthetic Sodium Sulfonate.

TYPICAL PROPERTIES:

Mineral Oil, wt %	36
Sodium Sulfonate, wt %	62
Average Molecular Weight, g/mol	450
Water, wt %	1.0
Inorganic Salts, wt %	1.4
Alkalinity as NaOH, wt %	0.1
Density at 15°C, Kg/L	0.996
Viscosity at 100°C, cSt	76
Color ASTM D-1500	4.0D
Appearance	Bright viscous liquid
Flash Point, COC, °C	> 180

APPLICATIONS:

QLS-11400 is an oil soluble rust and corrosion inhibitor possessing good emulsifying characteristics, used in the manufacture of preventative industrial fluids and lubricating oils and greases with excellent corrosion inhibition properties.

AVAILABILITY:

Tank trucks and 55 gallon drums.
